TEJAS TUKARAM KHANDEKAR

Full Stack Developer | React.js • Flask • Python • SQL

Pune, Maharashtra | +91 7720899829 | tejaskhandekar693@gmail.com | linkedin.com/in/tejas-khandekar

PROFESSIONAL SUMMARY

Highly motivated Full Stack Developer and recent B.Tech graduate with hands-on internship experience building responsive, user-friendly web applications and robust backend APIs. Proficient in React.js, Django, Node.js, and relational databases like MySQL and PostgreSQL. Adept at using Bootstrap and modern styling frameworks to craft seamless UIs. A strong collaborator eager to contribute to team-driven development environments. Available immediately for a full-time, on-site role in Pune.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, Bootstrap, React.js, Tailwind CSS
Backend: Python, Flask, Node.js (Basic), Django (Basic)
Databases: MySQL, PostgreSQL, SQL query writing & optimisation
Data Processing: Pandas, NumPy, ETL pipeline design
Tools & DevOps: Git, GitHub, VS Code, Postman, Jupyter Notebook, GitHub Actions (CI/CD basics), npm, venv/pip
Other: Power BI, Advanced Excel, Agile/Scrum, Technical Documentation (Markdown, Docstrings)
Soft Skills: Problem Solving, UI/UX Thinking, Written & Verbal Communication, Cross-functional Collaboration **PROFESSIONAL**

EXPERIENCE

Python Full Stack Developer Intern | *QSpiders* *Jan 2026 – Jun 2026 | Kolhapur*

- Developed 'Explore Kolhapur' Tourism Web App, a full-stack application featuring a responsive Bootstrap 5 UI, dynamic image galleries, user reviews, and interactive location maps.
- Built secure Django REST Framework backend services with JWT-authenticated endpoints to handle data CRUD operations.
- Collaborated actively with the development team using Git for version-controlled development, branching, and end-to-end project workflows.

Full Stack Developer Intern | *Future Interns* *Jun 2025 – Jul 2025 | Remote*

- Developed responsive, multi-page web applications using React.js (frontend) and Node.js with Express.js (backend), delivering highly responsive UIs across desktop and mobile devices.
- Built and integrated REST APIs connecting React.js components to Node.js/Express.js backend services, implementing proper HTTP methods, status codes, and JSON response handling.
- Optimised application performance by 30–40% through code-splitting, lazy loading, API response caching, and query optimisation.
- Collaborated actively in a team environment, applying Git/GitHub version control best practices for branch management and code reviews.

Python & Data Science Intern | *ITRoots* *Jul 2026 – Present | Remote*

- Built Python-based backend modules and data processing pipelines using Pandas, NumPy, and PySpark for large-scale dataset transformation and automation.
- Developed REST API endpoints using FastAPI with Pydantic validation, JWT authentication, and structured JSON responses following secure API design practices.
- Connected React.js frontend components to FastAPI backends via Axios, managing async state and error feedback effectively.

Power BI & Data Intern | *SkillInfytech IT Solutions Pvt. Ltd.* *Mar 2026 – Apr 2026 | Remote*

- Performed end-to-end data collection, cleaning, and transformation using Python and SQL; built stakeholder-ready Power BI dashboards with validated, accurate data at each pipeline stage.

PROJECTS

Explore Kolhapur — City Tourism Web App | *React.js, Django REST Framework, Bootstrap 5, MySQL*

- Developed a full-stack tourism web app featuring destination listings, image galleries, user reviews, and interactive location maps with a fully responsive Bootstrap 5 UI.
- Built Django REST Framework backend with JWT-authenticated endpoints for destination CRUD operations; managed data in MySQL with optimised SQL queries.
- Implemented category-based search and filter (historical, food, nature) with paginated API responses and React Router for seamless client-side navigation.

Financial Risk Analyzer | *React.js, FastAPI, Python, Pandas, MySQL*

- Built a full-stack financial analytics app: React.js dashboard for data input and visualisation, backed by FastAPI REST endpoints for risk metric computation (volatility, risk scores, exposure levels).
- Implemented JWT authentication, input validation, and parameterised SQL queries to prevent injection; used Axios for async API calls with structured error handling.

E-Commerce Website | *React.js, Django REST Framework, Bootstrap 5, PostgreSQL, PySpark*

- Built a full-featured e-commerce platform with product catalogue, category filtering, cart management, JWT authentication, and order processing.
- Developed Django REST Framework backend with product, order, and user endpoints; managed data in PostgreSQL via Django ORM; implemented Django Admin for management.

Personal Portfolio Website | *HTML5, CSS3, JavaScript, Bootstrap 5, React.js*

- Designed and built a fully responsive portfolio website with smooth scroll navigation, animated section transitions, and a dynamic React.js project card component.
- Implemented a JavaScript contact form with client-side validation integrated with an email service API; optimised performance via lazy loading and minified assets.

EDUCATION

B.Tech – Computer Science & Engineering *Jun 2022 – May 2026*

Sanjay Ghodawat University, Kolhapur, Maharashtra | CGPA: 8.20

HSC (12th Science) *Jun 2020 – Jun 2022*

Nehru Vidya Mandir, Kotoli, Kolhapur | 77.33% *Jun 2019 – Jun 2020*

SSC (10th Science)

Nehru Vidya Mandir, Kotoli, Kolhapur | 92.80%

CERTIFICATIONS

- Python Essentials 1 — Cisco Networking Academy (Jan 2026)
- Data Analytics with Python — NPTEL (May 2025)
- HackerRank SQL (Basic) — HackerRank (Mar 2026)
- Data Analytics Job Simulation — Deloitte / Forage (Jan 2026)
- Data Visualisation Virtual Experience — Tata / Forage (Jan 2026)
- Introduction to Machine Learning — Skillected (Jun 2025)
- Agile Scrum in Practice — OnWingspan (Nov 2025)
- Full Stack Web Development Internship Certificate — Future Interns (Jul 2025)

WORKSHOPS & TRAINING

- **Full Stack Development Workshop – Zomato Clone** | GUVI (IIT-M & IIM-A Incubated) & HCL, Dec 2024 — Hands-on workshop building a full-stack food delivery app.
- **FUTURESTACK: DevOps & Cloud Computing** | Sanjay Ghodawat University, Feb 2025 — Two-day workshop on DevOps practices, CI/CD, and cloud computing.
- **AI for Students: Build Your Own Generative AI Model** | NxtWave, Aug 2024 — Led as Student Leader supporting 50+ participants.
- **Automation and AI/ML 1.0 – Webinar** | SkillEcted Campus Program, Aug 2024.
